

## WHAT WOULD YOU DO?

If Aladdin and his genie rode by you... worried, and in a big hurry?

If a dragon so old and powerful that it it was in "Long ago..." stories was stealing maidens from your valley?

These are the kinds of mysteries and challenges Baron Rostov faces.

Have fun...

A **Tales of Technofiction** Book

**Roger White** is a careful observer of life and people, and he's done so from many interesting perspectives. He was a soldier in Vietnam in the 60's, a college student at MIT in the 70's, a computer network pioneer in the 80's, and a teacher in Korea in the 90's.

Roger thinks about how technology affects how we live, and then writes about it.
